Verse 4

Now I'm burning up the leather  
Another man shot down  
But just as long as it's not me  
I'll find another town  
And I don't mind the running  
I just hope not too late

Chorus

Someone's coming, for me and you  
But ride hard and we might get through

Verse 5

The hiss and a whine  
And an ugly slap  
I know a bullet's got my  
But thirteen steps and a hanging tree's  
Not gonna be my fate  
Ride hard  
It was all for the love of you dear  
I swore I'd try and change  
But I warned you once  
I'm a jealous man  
And it's a part of myself I hate

End Chorus

But ride hard  
And we might get through  
Ride hard me and you  
Ride hard
